Free Fences for our communities

Each month this summer MasterHalco, the world's leading provider of fence systems, is donating up to \$5,000 in fencing materials to deserving non-profit organizations. We are proud to play a part in helping local communities provide safe and secure environments for our children.

From safe barriers around swimming pools to baseball and community recreation facilities, the proper use and selection of fencing increases safety and helps reduce the number of injuries and fatalities that occur each year due to accidents.

Visit our Web site to learn more about the types of fence systems that are available and to register your organization for up to \$5,000 in free fencing materials.

www.FenceOnline.com

Could your non-profit group use \$5,000 in free fencing materials?

MasterHalco, the world's leading provider of fence systems, is helping deserving non-profit organizations with projects aimed at improving community safety and security by donating fencing materials.

MAGNUM
by MASTER-HALCO

SIDE BY SIDE, THERE'S NO COMPARISON...

Available Thickness:
3/4", 1 1/16", 5/8"
Available Heights:
4', 5', 6', 8'

Why Magnum by Master-Halco is the best—
Fine seedlings are greenhouse-grown then
transplanted to tree farms. They are specially
pruned to minimize knots and blemishes. The
result is a superior fence board that puts ordinary
boards to shame. You'll see the difference and so
will your customers. When quality really counts,
there's no comparison to Magnum fence boards.

You don't need a magnifying glass to see the
many advantages of Magnum Premium Boards:

- Premium - Grade No. 1 both faces
- Full width 4" and 6" boards available
- Precision-milled for easy installation
- Pressure-treated with CCA preservative for maximum protection
- Water repellent treatment also available
- 12-year limited warranty*

The Better Way to Build a Wood Fence

STEELMATE
By MASTER HALCO

Perfect with pre-fab panels.

SteelMate™ is a logical, long-lasting steel post designed for wood fence systems. Pre-drilled holes every inch allow for easy installation and SteelMate works great with prefabricated panels. All of these features and the strength of steel... simply a better way to build a wood fence.

Increase profits in your wood product mix. Stock SteelMate and provide your customers with the quality wood fence they deserve.

- No Scrap
- No Sorting
- No Wasted Space: Save 80% of storage space normally occupied by wood.

Fencing Codes

How to Find Pool Fencing Codes for Your Area

Pool barrier laws vary greatly across the nation. Contact your city or county governments to learn what the pool safety code is in your area.

Regardless of what the code is for your area, be sure to install a safe pool barrier. It is a good idea to review examples of pool safety codes. Here are a few examples:

- Consumer Product Safety Commission www.cpsc.gov/www.cpsc.gov/cpsc/publ/pubs/pool.pdf
- International Code Council www.iccsafe.org

The goal, with instituted layers of protection, is to come as close to a "fail safe" system of preventing drowning incidents as possible. Meaning that if there is a momentary lapse of supervision for whatever reason, you have several backup systems in place.

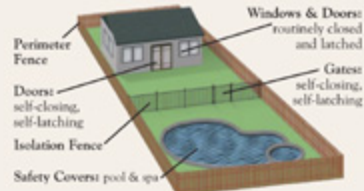

Effective Barriers Against Drowning

Drowning is the leading cause of death for children under the age of five.

- Most children who drown were not supervised and had been out of sight for less than 5 minutes.
- Children can drown in the time it takes to get out of a room for a towel (10 seconds) or a shower (20-30 seconds).
- 65% of victims are between 1 - 3 years old.
- Toddlers, in particular, often do seem to be unsuspected as their capabilities change so rapidly.

The mesh size for chain-link fences must not exceed 1-3/4"

Chain-Link

Galvalume® Chain-Link Fabric

Superior Coating

Galvalume is one of the best protective coatings available for chain-link fabric. Made of a zinc-5% aluminum-magnesium alloy, Galvalume provides exceptional corrosion and rust resistance. The result is an extended, protected life for a chain-link fence.

This new generation of zinc coating is composed of alternating zinc-rich and aluminum-rich layers. Galvalume combines the beneficial properties of both galvanized and aluminum coatings, creating the highest value in chain-link fences.

Confidence Guaranteed

To ensure superior corrosion protection, Galvalume coated chain-link fabric is backed by our 20-year corrosion warranty.

Excellent Adhesion

Increased Formability

Galvalume coating has greater ductility than zinc, which superior resistance to cracking, flaking and machine formed burrles and holes of the chain-link fabric. The cathodic action of zinc, the ends of the wires are compromised when they are cut or scratched. Thus, Galvalume chain-link fabric does not rust like other types of pre-coated fabrics.

Galvinal® The Performance Collection Systems

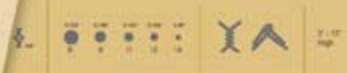

Specify Galvinal

The Professional's Choice

For years, fence contractors and architects have been asking for a long-lasting coating for chain-link fences. The corrosion-resistant properties of Galvalume make it a perfect choice.

When your plans call for chain-link fences, specify Galvinal by Master Halco. Galvalume chain-link fence fabric offers exceptional security in commercial, industrial, institutional, and recreational fencing applications. It also provides the best maintenance-free protection in the most severe coastal and industrial environments. Galvalume meets ASTM specifications F 1345.

Fabric Gauge: Available in 30, 36, 42, 48 and 54
